Overview

Sal Bros Concreting, a trusted Melbourne-based concreting company with over 20 years of combined industry experience

We proudly deliver high-quality concrete and earthwork solutions across both commercial and domestic sectors, with a strong focus on customer satisfaction, professionalism, and reliability.

As a family-owned and operated business, we pride ourselves on delivering projects on time and to specification – from residential driveways to complex commercial slabs.

What sets us apart

Over 20 years of hands-on industry experience.

Flexible across domestic and commercial sites.

Fully licensed and insured.

Safety-first approach with full compliance.

Reliable, professional, and punctual service.

Strong focus on builder and client relationships.

Core services

Concreting

- Schools
- Suspended slab pours

DOMESTIC

- Driveways and footpaths
- Shed slabs
- Coloured and exposed aggregate
- Council footpath and crossover reinstatement

Core services

Earthworks

- Site cuts and excavation
- Strip footings and bored piers
- Soil disposal
- Pier hole drilling

Rectifications

- Concrete cutting
- Concrete demolition
- Concrete reinstatement
- Core drilling

Our sustainability commitment

As part of our commitment to environmental sustainability, we prioritise the recycling of materials throughout our operations.

Our processes are designed to minimise waste and maximise resource recovery, including the reuse of reclaimed concrete, aggregates, and water. By integrating recycled materials into our production, we reduce the demand for virgin resources and lower our carbon footprint – supporting a more circular and responsible construction industry.

Certifications and compliance

- Public Liability Insurance

- White cards and OH&S compliant

- WorkCover registered

- Plant operator tickets
